CURRENT LIST of MEDICAL LITERATURE

Vol. 8 Feb. 9, 1945 No. 6

SUBJECT GROUPS ACCORDING TO JOURNALS

1. Anatomy; Histology
2. Anthropology; Ethnology
3. Archeology; Paleontology
4. Aviation Medicine
5. Bacteriology; Parasitology
6. Biology; Embryology
7. Bone; Joint; Extremities; Muscle
8. Cancerology
9. Cardiovascular System
10. Chemistry; Physics
11. Dentistry; Stomatology
12. Dermatology
13. Diagnosis; Clinical Methods
14. Dietetics; Foods; Nutrition
15. Digestive System
16. Endocrinology
17. Forensic Medicine; Toxicology
18. Genetics; Eugenics
19. Gynecology; Obstetrics
20. Hematology
21. History; Biography; Bibliography
22. Homeopathy; Osteopathy, etc.
23. Hospitals
24. Immunology; Serology
25. Industrial Hygiene; Sociology
26. Infectious Diseases; Epidemiology
27. Medicine
28. Metabolism
29. Military and Naval Medicine
30. Miscellaneous
31. Neurology; Psychiatry
32. Nursing
33. Ophthalmology
34. Otorhinolaryngology; Phoniatry
35. Pathology
36. Pediatrics; Child Welfare
37. Pharmacology; Pharmacy
38. Physiology
39. Psychology; Mental Hygiene
40. Public Health; Sanitation
41. Radiology; Phototherapy
42. Respiratory System
43. Surgery; Traumatology
44. Therapeutics
45. Tropical Medicine
46. Tuberculosis
47. Urology
48. Venereal Diseases; Sexology
49. Veterinary Medicine
50. Zoology

1. Anatomy; Histology

Bull. histol. appl., Lyon, 1944, 21: (Jan.)

LANDAU, E. Formations syncytiales dans le systeme nerveux peripherique. 5-10.
POLICARD, A., & MULLER, F. Structure et histophysiologie des dispositifs perilobulaires du poumon. 11-22.

Bull. histol. appl., Lyon, 1944, 21: (Feb.)

PITTALUGA, G., & BESSIS, M. Sur la structure des nucleoles dans les cellules normales et pathologiques. 23-36.
BAUD, C. A. Structure et signification de la capsule fibreuse du rein des Mammiferes. 37-44.

J. Morph., 1944, 75: (Sept.)

GROVE, C. The larva of Styela (Cynthia) partita; structure, activities and duration of life. 173-91, incl. pl.
MCCULLOUGH, A. W. Evidence of the macrophagal origin of adipose cells in the white rat as shown by studies on starved animals. 193-201.
COLWIN, L. H. Binary fission and conjugation in Urceolaria synaptae (?) type II (Protozoa, Ciliata) with special reference to the nuclear phenomena. 203-49, incl 9 pl.
WILLIAMS, J. L. The comparative anatomy of the internal genitalia of 3 psychid moths. 251-60.
WORLEY, L. G. Studies of the vitally stained Golgi apparatus; the methylene blue technique and some of its implications. 261-89, incl. 4 pl.
GREEN, W. W., & WINTERS, L. M. Histological studies of boar testes. 291-301.
NELSEN, O. E. The formation of the early genital rudiment and differentiation of sex in the opposum. 303-33, incl. 7 pl.

Tra. Am. Micr. Soc., 1944, 63: (Oct.)

PREBLE, N. A., & HARWOOD, P. D. A heavy infection of strigeids in a kingfisher (Megaceryle alcyon alcyon). 340.
HONIGBERG, B. A morphological abnormality in the cestode, Dipylidium caninum. 342-4.
CUCKLER, A. C., & ALICATA, J. E. The life history of Subulura brumpti, a cecal nematode of poultry in Hawaii. 345-57.
CONGER, P. S. A simple method for micrometric ruling, and some applications. 358-61.

4. Aviation Medicine

Air Surgeon's Bull., 1945, 2:

MAISON, G. L., MAASKE, C. A. /et al./ Acceleration and the G suit. 3-7.
BONNET, W. L. New x-ray devices; cassette holder. 7.
____. New x-ray devices; fluoroscopic pressor device. 7.

GROW, M. C., & LYONS, R. C. Body armor; a brief study on the development. 8-10.
STARK, R. C. Air evacuation; Italian Campaign. 11.
SENTURIA, B. H., & PEUGNET, H. B. Noise in aircraft. 12.
SULLIVAN, W. N. Chemical control of insects of military importance. 16.
GRINKER, R. R. Rehabilitation of flyers with operational fatigue. 18-21.
CRAWFORD, R. C. Atabrine psychosis. 21.
STERN, A. Medical supply in the theater of operations. 22.
SHEELEY, W. F. Frostbite. 23-5.
BENNETT, C. V. Vaccine shipping in hot climates. 25.
IDENTIFICATION and care of the dead in crashes. 26-9.
AMETER, R. K. Medical air ambulance kit. 29

5. Bacteriology; Parasitology

Bact. Rev., Balt., 1944, 8: (Dec.)

VAN NIEL, C. B. Recent advances in our knowledge of the physiology of microörganisms. 225-34.
HASTINGS, E. G. The significance of the bacteria and the protozoa of the rumen of the bovine. 235-54.
BREED, R. S., MURRAY, E. G. D., & HITCHENS, A. P. The outline classification used in the Bergey Manual of Determinative Bacteriology. 255-60.

Med. parazit., Moskva, 1944, 13: No. 4.

MOSHKOVSKY, S. D. /Quantitative laws of malaria epidemiology; the dynamics of malariometric values/ 3-25.
ALMAZOVA, V. V. /Phenology of Anopheles maculipennis Meig. in the Moscow province/ 26-37.
TARABUHIN, I. A. /Phenology of Anopheles maculipennis Meig. in West Siberia/ 38-41.
SHIPICYNA, N. K. /The epidemiological role of the autumnal generation of Anopheles maculipennis in the northern zone of the USSR/ 44-52.
NECKY, G. I. /Seasonal changes in the density of Anopheles maculipennis at Omsk/ 53-8.
GLAGOLEVA, E. M. /Data on the ecology of Anopheles larvae in Tadzhikistan; biotopes of Anopheles algeriensis Theob. and their chemism/ 58-64.
____. /Data on the ecology of Anopheles larvae in Tadzhikistan; biotopes of Anopheles lindesayi Giles and Anopheles marteri Sen. Prun. and their chemism/ 64-7.
IVANOV, I. K. /The types of anophelogenic biotopes and the fauna of Culicinae in the locality of the so-called Turgai strait/ 68-77.
TIMOFEEVA, L. V. /Anophelogenic role of the artificial lakes of the Murgab river/ 77-83.
CHUMAKOV, M. P., MIRONOV, V. S. /et al./ /Studies on ultravirus encephalitis; infection with encephalitis of Ixodes persulcatus Sch. in various districts of the USSR/ 83-9.

6. Biology; Embryology

Biologico, S. Paulo, 1944, 10:

PENHA, A. M. Pneumonia dos bezerros. 315-20

FONSECA, J. P. DA. O bicho mineiro das folhas do cafeeiro; Leucoptera coffeella (Guerin-Meneville) 298; 329.

Bol. biol., Puebla, 1943, 2:

CARRASCO-FORMIGUERA, R. Estudio de las variaciones del fosforo de la sangre, en relacion con las de la glicosa, en el curso de la glicolisis aguda. 193-217, incl. tab.
SUAREZ SOTO, V., & PONCE, J. Determinacion de la superficie fijadora del oxigeno en la sangre humana. 219-44.
MENDOZA, E., & CARRASCO-FORMIGUERA, R. Estudios sobre las cifras normales de la concentracion de hemoglobina en la sangre humana en la altiplanicie central de Mexico. 245-64.

BUEN, F. DE. La reproduccion en el grupo de los hongos. 265-97.
SUAREZ SOTO, R. Determinacion del contenido de acido ascorbinico en la especie vegetal Oxalis americana (Big) 299-302.
GLOCKNER, J. Carga electroforetica de las bacterias. 303-6.
MELLADO, M. Como se modifica la formula leucocitaria en los sifiliticos. 307-12.

Q. Rev. Biol., 1944, 19: (Dec.)

CORT, W. W. The germ cell cycle in the digenetic trematodes. 275-84.
HOLLANDER, W. F. Mosaic effect in domestic birds. 285-307.
SCHARRER, E. The blood vessels of the nervous tissue. 308-18.
HOLMES, S. J. Recapitulation and its supposed causes. 319-31.

8. Cancerology

J. Nat. Cancer Inst., 1944-45, 5:(Dec.)

ALGIRE, G. H. Growth and pathology of melanoma S91 in mice of strains dba, A, and C. 151-60.
BESTON, W. E. Role of heredity in tumor development. 161-71.
FRANKE, F. E. Attempts to produce anaphylaxis in guinea pigs with a polysaccharide from Serratia marcescens (Bacillus prodigiosus) 173-7.
____, & RICHERT, D. Effects of sublethal doses of a polysaccharide from Serratia marcescens (Bacillus prodigiosus) on the electrocardiogram, blood ascorbic acid, and nonprotein nitrogen of the dog. 179-83.
____. Action of toxic doses of the polysaccharide from Serratia marcescens (Bacillus prodigiosus) on the dog and guinea pig. 185-93.
BRUES, A. M., & SHEAR, M. J. Chemical treatment of tumors; reactions of 4 patients with advanced malignant tumors to injection of a polysaccharide from Serratia marcescens culture filtrate. 195-208.
GREENSTEIN, J. P., & LEUTHARDT, F. M. Degradation of cystine peptides by tissues; exocystine desulfurase and dehydropeptidase in rat-liver extracts. 209-21.
____, & ____. Degradation of cystine peptides by tissues; distribution of exocystine desulfurase and dehydropeptidase in tissue extracts of various species. 223-5.

DYER, H. M., & KELLY, M. G. Gastric function of dogs after stimulation with acetyl-beta-methylcholine chloride and histamine diphosphate. 227-32.

9. Cardiovascular System

Am. Heart J., 1944, 28: (Dec.)

GOLDEN, A. Syncope associated with exertional dyspnea and angina pectoris. 689-98.
AMADEO, J. A. A suggestion for improving the structure of the cardiac coronary circulatory system without surgical intervention. 699-713.
LEVY, R. L., & VON GLAHN, W. C. Cardiac hypertrophy of unknown cause; a study of the clinical and pathologic features in 10 adults. 714-41.
REICH, N. E. Unusual conditions involving the abdominal aorta; 7 cases with autopsy observations. 742-51.
HARDGROVE, M. & SMITH, E. R. Effects of emetine on the electrocardiogram. 752-7.
GRIFFITH, J. Q., jr., & LINDAUER, M. A. Increased capillary fragility in hypertension; incidence, complications, and treatment. 758-62.
GAMBILL, E. E., & HINES, E. A., jr. Blood pressure in the arm and thigh of man. 763-85.
____, & ____. Blood pressure in the arm and thigh of man; a study of averages, variations, and differences between thigh and arm. 763-72.
____, & ____. Blood pressure in the arm and thigh of man; hydrostatic influences. 773-6.
____, & ____. Blood pressure in the arm and thigh of man; effect of venous engorgement. 777-81.
____, & ____. Blood pressure in the arm and thigh of man; blood pressure in exercised extremities. 782-5.
FRIEDBERG, L. The effect of renal vein occlusion on the blood pressure of the dog. 786-93.
DECHERD, G. M., & RUSKIN, A. Momentary atrial electrical axes; normal sinus rhythm. 794-804.
STRAUS, B. Chronic constrictive pericarditis due to a foreign body (needle) in the pericardium. 805-9.
MARRA, A. F. Report of a case of paroxysmal ventricular tachycardia, with no demonstrable organic heart disease, which produced attacks of syncope. 810-5.
DOANE, J. C., & SKVERSKY, N. J. Massive cardiac hypertrophy; a case report. 816-8.

10. Chemistry; Physics

Biochem. Zschr., 1942-43, 313: (Jan.)

ENDERS, C. P_H -Abhängigkeit und Gleichgewichtsreaktion der Aufspaltung der Zucker zu Methylglyoxal. II. 265-9.
BECHTOLD, E. Untersuchungen über Cytochrome. 270-88.
BAYERLE, H., & BORGER, G. Zur Frage der Trennung der die l- und d.l-Peptidspaltung bewirkenden Enzyme. II. 289-99.
BROCK, N., DRUCKREY, H., & LOCH, W. Die Bedeutung verschiedener Substrate für den Stoffwechsel der Gewebe. 300-16.
KEIL, R. Der Kaliumgehalt der Drosophila melanogaster (Wildform) und die spontane Mutabilität. 317-36.

MACOVSKI, E., & STAN, G. Künstliche Kieme als Hilfsmittel zur Untersuchung der Permeabilität lebender Membranen; Prüfung einiger Vergiftungsgleichungen an der Kaliumchloridpenetration durch die Cellophanmembran. 337-51.
ENDERS, C. Ueber den Chemismus der Huminsäurebildung unter physiologischen Bedingungen; die Abhängigkeit von Bildungsgeschwindigkeit, Eigenschaften und Zusammensetzung der aus Methylglyoxal and Glykokoll gebildeten Huminsäuren von verschiedenen Faktoren. 352-71.
HOFFMANN, J., & GARZULY-JANKE, R. Einfluss von Uranspuren auf Hefezellen. 372-6.
____. Bioelement Uran im Pflanzen-und Tierreich sowie im menschlichen Organismus. 377-87.
DRAKE, B. Untersuchungen über einige Polysaccharide der Flechten, vornehmlich das Lichenin und das neuentdeckte Pustulin. 388-99.
HURKA, W. Die Relationen einwertiger Ionen im Harn und Blut. 400-18.
____. Die Relationen einwertiger Ionen im Harn und Blut; die Relation zwischen Natrium, Kalium und Chlorid im Harn bei Schädigungen des Herzens, der Niere und der Leber. 400-15.
____. Die Relationen einwertiger Ionen im Harn und Blut; die mikroanalytische Bestimmung der Summe Natrium und Kalium im Harn und Blut. 416-8.
KIESE, M. Ueber Kohlensäureanhydrase. 419-27.

J. Org. Chem., 1944, 9: (Nov.)

BROWNE, H. H. Evidence of the existence of bisulfite compounds of sugars. 477-83.
JONES, G. D., ZOMLEFER, J., & HAWKINS, K. Attempted preparation of polyvinylamine. 500-12.
IWAMOTO, E. K., & HARTUNG, W. H. Amino alcohols; methoxyl derivatives of phenylpropanolamine and 3.5-dihydroxyphenylpropanolamine (1) 513-7.
CROSSLEY, F. S., & MOORE, M. L. Studies on the Leuckart reaction. 529-36.
LEE, J., & FREUDENBERG, W. Piperidine derivatives; lobelan and related compounds. 537-46.

Kolloid Zschr., 1944, 107: (June)

NACHL, P., JANNER, G., & SCHULZ, G. Ueber Kondensations-Aerosole; Quecksilbernebel und Bleioxydrauche. 194-201.
LIESEGANG, R. E. Kolloidchemie des Bindegewebes. 210-2.

II. Dentistry, Stomatology.

An. espan. odontoestomat., 1944, 3:(Oct.)

CALATAYUD CORRAL, F. Evolucion de los fenomenos de putrefaccion en la camara pulpar en relacion con la cronotanatologia. 851; passim.
PERAS BELLOM, J. Estomatitis ulcero-membranosa. 860; 963.
MESA, A. La estetica en las protesis de resinas sinteticas. 869-73.
SCHUCHARDT, K. Tratamiento ortopedico del trismus, con metodos antiguos y modernos. 874-94.
WILKINSON, A. A. La extraccion prematura del primer molar permanente como mejor metodo para conservar la dentadura en general. 911-8.

QUIST, G., ENDICOTT, C. L., & MITCHELL, J. H. La asfixia como consecuencia de la extraccion dentaria en un hemofilico; con una nota sobre la propagacion de la infeccion en la angina de Ludwig. 919-23.

An. espan. odontoestomat., 1944, 3:(Nov.)

BELTRAN CODINA, J. Ensayos clinicos con los estrogenos en estomatologia. 965-82.
VILANOVA, X. Leucoplasias de boca electrogalvanicas. 993; passim.
ZANDER, H. A. Uso del nitrato de plata en el tratamiento de la caries. 1014-7.
BADCOCK, M. Terapeutica del habla en ciertos trastornos vocales. 1018-20.

Brit. Dent. J., 1944, 77: (Dec. 1)

ATTENBOROUGH, A. G. The moulding of acrylic teeth in the laboratory; a simplified process. 311-5.
GREEN, R. A dental officer's work in Tobruk and elsewhere. 317-9.
WEBB, S. J. Mixed tumour of palate. 320.

Bur. Chic., 1944, 44:

SICHER, H. Problems of pain in dentistry. 91-115.

Dent. J. Australia, 1944, 16: (Nov.)

WALLACE, K. S., & KEMP, H. R. Localized osteitis or fibrous dystrophy of bone; case report. 379-84.

J. Dent. Res., 1944, 23: (Oct.)

FORSNER, H. K. The effect of temperature on the rate of setting of plaster of Paris. 305-8.
WILIE, W. L. The naso-mental line as a guide for the determination of the occlusal plane. 309-12.
KERR, D. A., & FIELD, H., jr. Sodium hexametaphosphate as an aid in the treatment of periodontal disease. 313-6.
ZISKIN, D. E., SIEGEL, E. H., & LOUGHLIN, W. C. Diabetes in relation to certain oral and systemic problems; clinical study of dental caries, tooth eruption, gingival changes, growth phenomena, and related observations in juveniles. 317-31.
GRASE, S. W., & REVESZ, J. Reestablishment of transseptal fibers following extraction. 333-6.
BURNILL, D. Y., GURTZI, F. R., & IVY, C. A. The pain threshold raising effects of amphetamine. 337-44.
LEFKOWITZ, W., BODECKER, C. F., & SHAPIRO, H. H. Experimental papillectomy; histological study; preliminary report. 345-51.
EISENBRANDT, L. L. Studies on the pH of saliva. 353-74.
BELDING, P. H., & BELDING, L. J. Mutations of bacteria under dietary influence. 375-8.
GOTTLIEB, B. Histopathology of enamel caries. 379-84.
HUNT, H. R., EMPERT, C. A., & ERWIN, W. G. Inheritance of susceptibility to caries in albino rats (Mus norvegicus) 385-401.

J. N. Jersey Dent. Soc., 1944-45, 16:

ROBINSON, H. B. G. Vincent's infection in children. No. 2, 13-7.

Mouth Mirror, Lond., 1944-45, 21: (Dec. 1944)

RAMSDEN, D. C. A review of the methods available for painless cavity preparation. 5-8.
SUPPLEMENTARY memorandum to the Interdepartmental Committee on Dentistry. 35-8.

Rev. brasil. odont., 1943, No. 4 (Aug.)

LEGGE JUNIOR. Reforma do ensino. 7-14.
BRITTO, A. DE. Infeccao focal de origem dentaria. 15-20.
RODRIGUES, R. Quebra de articulacao dentaria e psiquismo, 26-30.
GUIMARAES, L. Patologia na clinica dentaria moderna. 31-4.

BATISTA BASTOS, J. Epulidectomia total do maxilar superior. 86.
RUIZ, M. La Universidad de Chile y su Escuela dental. 100-3.

Rev. Chicago Dent. Soc., 1945, 9:

POMERANCE, I. S. Experiences of a dentist with an occupational affliction. 18, &c.

S. Afr. Dent. J., 1944, 18:

HISTORY of the Pretoria Dental Clinic; Pretoria leads the way with mobile unit. 320-4.
MCCAGIE, W. Non-European dentistry in Natal; the voice of one (dental surgeon) crying in the wilderness. 324-6.
NORMAN, H. W. Waiting rooms and surgeries. 335.

Stomatologia, Moskva, 1942, No. 2.

BRONSTEIN, J. Z. /Primary treatment of maxillo-facial gunshot wounds during military operations in Mongolia and Finland based on experience of the stomatological unit of the S. M. Kirov Academy of Military Medicine/ 3-11.
MIHELSON, N. M. /Early operation following gunshot wounds of the face/ 11-5.
PAELEVSKY, M. V. /Ligation of the common carotid in phlegmons of the submaxillary region/ 15-9.
NITROV, F. M. /Secondary hemorrhages in maxillo-facial gunshot wounds/ 20-7.
RESINA, A. R., & BREITMAN, V. K. /Post-injection cellulitis of the peri-maxillary region/ 27-34.
MIHELSON, N. M. /The work of the maxillo-facial department of the Central Traumatological and Orthopedic Institute/ 34-9.
HAIT, K. L. /Pathological modifications of the oral mucous membrane due to the use of removable rubber prostheses/ 40-2.
GOLDOVA, T. G. /The condition of dentine of carious cavities beneath various filling materials/ 42-6.

KOPP, Z. V. /Extensible impression tray/ 47
MIHELSON, N. M. /Wire splints/ 48.
BAHMUTOVA, E. /Practical instructions on methods of wire splint immobilization in fractures of the jaw/ 49-53.

Stomatologia, Moskva, 1943.

PLATONOV, E. E. /The administration of chloramine in stomatology/ 3.
FRIEDMAN, J. L., & SMOLIANOVA, R. I. The condition of the periodontium in pulpitis/ 4-6.
PLATONOV, E. E. /The prophylaxis of periodontitis/ 6.
MEZEOVA, A. I. /Cool sterilization of dental instruments/ 8-10.
LUKOMSKY, I. G. /Scheme for tooth conservative treatment in evacuation hospitals. 10-21.
MEISAHOVICH, I. A. /The treatment of marginal gingivitis and parodontosis and certain measures for sanitation of the oral cavity in maxillary wounds/ 21-6
LIBINA, A. U., & KISELEVA, M. M. /Morphological modifications of the gingival tissue in gingivitis and paradontosis/ 26-31.
BASHKINA, S. U. /The gingival pocket/ 32-6.
RAUER, A. E. /Plaque suture in granulating facial wounds/ 37-9.
VEISSBLAT, S. N. /Anesthesia at the oval and pterygo-palatine aperture in maxillary wounds/ 40-3.
DACENKO, M. F. /Localization of foreign bodies in the region of the facial skeleton and indications for removal/ 43-6.
BETELMAN, A. I. /The methods of prosthesis fixation in jaw fractures/ 47-50.
KURLIANDSKY, V., & VERBICKY, J. /Therapeutic physical culture in maxillo-facial wounds/ 51-4.
MATESIS, M. M. /The control of jaw contractures and an apparatus for their removal/ 54-6.
OCHSMANN, I. M. /A modification of the Darcissac apparatus for mechanotherapy of jaw contracture/ 56.
ATAROV, L. M. /Mechanotherapy of the masticatory muscles/ 57.
FEOFILOVA, K. I. /The use of solid splints for the mandible only in lower jaw fractures/ 58.
BYNIN, B. N. /Maxillo-facial aid during the present war/ 60-2.
LUKOMSKY, I. G. /The work of the maxillo-facial sections of evacuation hospitals/ 62-4.

Stomatologia, Moskva, 1943, No. 2.

OKESMANN, I. M., & MAKSUDOVA, M. A. /The innervation of tooth pulp/ 3-9.
BYSTROVA, O. N. /Results of treatment of pulpitis with Bacillus acidophilus/ 9-11.
EPSTEIN, M. M. /The treatment of pulpitis with sodium fluoride according to Lukomsky's method/ 12-4.
FRIEDMAN, J. L., DROBOVA, G. V., & GINODMAN, F. G. /Adsorption of fluorine by the dental tissues/ 14-7.
BRAVERMAN-DYSKIN, G. B., & MILGRAM, E. B. /The treatment of ulcerous stomatitis and gingivitis with vitamin K_3/ 17-9.
LEVENSON, S. N.M & HORNSTEIN. /The effect of fractured and dislocated teeth and roots in the fracture line on the course of traumatic osteomyelitis/ 19.
LUKOMSKY, I. G. /Contractures of the mandible of gunshot origin/ 21-5.

MIHELSON, N. M. /Prevention and treatment of contractures of the maxilla following facial wounds/ 25-7.
RABINOVICH, A. S. /The surgical treatment of cicatricial constriction of the jaws/ 28-31.
RESINA, A. R., & EMELEVSKY, M. V. /Experimental data on callus formation under the action of sodium fluoride/ 31-4.
VASILIEV, G. A., & DOMSHLAK, M. P. /Results of roentgenotherapy in maxillofacial wounds/ 35-9.
GOLDBERG, M. S., & MILGRAM, E. U. /The use of vitamin K_3 in post-extraction hemorrhages/ 40.
KURLYANDSKY, V. U. /The mechanism of the formation of cicatricial contractures of the motor apparatus of the face and mandible/ 42-5.
BYNIN, B. N. /Anatomo-physiological basis for the prophylaxis and therapy of maxillary contractures/ 45-50.
LADYZHENSKY, M. M. /Mandibular contractures in gunshot wounds and their treatment/ 50-5.
LARAS, I. /The care of instruments/ 56.

Stomatologia, Moskva, 1943, No. 4.

HOFFUNG, E. M. /The prevention of periodontitis/ 3-6.
MEISAHOVICH, I. A. /The possibility of remineralization of dentine on the walls of a cavity affected with caries/ 6-12.
LIBIN, S. I. /The control of tuberculous infection of stomatogenous origin during wartime/ 12-4.
REPA, A. G. /Physico-chemical characteristics of dental cements/ 14-8.
WEISS, S. I., & OCHSMANN, I. M. /Clinico-laboratory evaluation of cement No. 4/ 18-24.
ENTIN, D. A. /Modern methods of treatment of gunshot fractures of the jaw/ 25-32.
DACENKO, M. F. /Early secondary plastic surgery in injuries of the maxillofacial region/ 33-7.
VILENSKY, V. I. /Interchange of ascorbic acid (vitamin C) in traumatic and odontogenous osteomyelitis of the jaw/ 37-41.
EMELEVSKY, M. V. /The treatment of salivary fistulae/ 42-4.
